

Sabrina's Memories

I am so glad to find that FCDC has a website! I went to your camp almost 20 years ago, from when I was 4 until I was 10. I always looked forward to going to camp each summer and I have very fond memories of my time there. Nowhere else would I have had the opportunity to try my hand at archery, canoeing, making clay pots, walking across a rope strung high up in the trees, acting in plays, free sing, learning to swim (even though I hated it then, I am grateful now), spending all day outside and so much more. I am thrilled to see that is camp is still much the same as I remember and that Gail and Tom are still running it! I even still remember the words to Taps from our flag lowering ceremonies.

I moved from Massachusetts when I was 11 and wasn't able to go to FCDC anymore. I think that I would have continued through all of the 'tribes' and eventually would have become a councilor. I want to thank you for providing children with such a wonderful environment that exposes them to the outdoors, arts, and other skills that most kids (especially these days) don't have the opportunity to experience. Thanks for the great memories and for introducing me to all of my camp friends. I wish FCDC continued success and hope that you are around for years to come.

Yours truly,
Sabrina
